

Biome Book

Name: _____

What is a Biome? _____

Directions:

1. Use page 143 of the book and color code the biomes of the world (pg 2 of this packet)
2. Use your book to draw pictures of each biome, describe average temperature and precipitation, abiotic (**nonliving**) factors, dominant plants, dominant wildlife, and geographic distribution (where you find the biomes).
3. **Use your own words!**

Tropical Rainforest

Facts about this biome:

Average Temperature

Average Precipitation

Abiotic Factors

Dominant Plants

Dominant Wildlife

Geographic Distribution

Draw the biome below

Temperate Forest

Facts about this biome:

Average Temperature

Average Precipitation

Abiotic Factors

Dominant Plants

Dominant Wildlife

Geographic Distribution

Draw the biome below

Taiga

Facts about this biome:

Average Temperature

Average Precipitation

Abiotic Factors

Dominant Plants

Dominant Wildlife

Geographic Distribution
